Typical Corporate Source Index Listing

Listings in this index are arranged alphabetically by corporate source. The title of the document is used to provide a brief description of the subject matter. The page number and the accession number are included in each entry to assist the user in locating the abstract in the abstract section. If applicable, a report number is also included as an aid in identifying the document.

[SAE PAPER 911403]

Development and (evidence for) destruction of biofilm Countermeasures against space flight related bone with Pseudomonas aeruginosa as architect p 390 A92-50167 [SAE PAPER 911404] p 185 A92-31331 Spaceflight alters immune cell function and distribution Regenerable biocide delivery unit p 382 A92-51499 [SAE PAPER 911406] p 202 A92-31333 Effect of spaceflight on natural killer cell activity The development of a volatile organics concentrator for p 382 A92-51500 use in monitoring Space Station water quality Implementation and control of a 3 degree-of-freedom [SAE PAPER 911435] p 202 A92-31336 force-reflecting manual controller p 407 A92-51735 Evolutionary development of a lunar CELSS Rapid increase of inositol 1,4,5-trisphosphate in the p 208 A92-31380 [SAE PAPER 911422] HeLa cells after hypergravity exposure Regenerative Life Support Systems (RLSS) test bed p 414 A92-53745 performance - Characterization of plant performance in a Design of a controlled ecological life support system controlled atmosphere Regenerative technologies are necessary **ISAE PAPER 9114261** p 208 A92-31383 implementation in a lunar base CELSS p 440 A92-54282 Advanced air revitalization for optimized crew and plant Effects of gravitoinertial force variations on optokinetic [SAE PAPER 911501] p 209 A92-31388 nystagmus and on perception of visual The use of membranes in life support systems for orientation p 422 A92-54726 long-duration space missions Effects of microgravity on the interaction of vestibular p 209 A92-31392 [SAE PAPER 911537] and optokinetic nystagmus in the vertical plane Development of a proton-exchange membrane p 422 A92-54727 ectrochemical reclaimed water post-treatment system Attenuation of human carotid-cardiac vagal baroreflex p 210 A92-31393 [SAE PAPER 911538] responses after physical detraining p 423 A92-54728 Airborne trace organic contaminant removal using thermally regenerable multi-media layered sorbents Changes in leg volume during microgravity simulation p 423 A92-54729 [SAE PAPER 911540] p 210 A92-31395 A computerized databank of decompression sickness Regenerative life support systems (RLSS) test bed incidence in altitude chambers p 424 A92-54734 development at NASA-Johnson Space Center Microgravity human factors workstation development [SAE PAPER 911425] p 210 A92-31397 [IAF PAPER 92-0245] p 441 A92-55685 An evaluation of three anti-G suit concepts for shuttle Effects of microgravity on renal stone risk assessment p 242 A92-35431 p 424 A92-55693 reentry [IAF PAPER 92-0257] Validation of a dual-cycle ergometer for exercise during Acute leg volume changes in weightlessness and its p 244 A92-35461 100 percent oxygen prebreathing p 244 A92-35461
Dexamethasone effects on creatine kinase activity and [IAF PAPER 92-0259] p 425 A92-55695 insulin-like growth factor receptors in cultured muscle We can't explore space without it - Common human p 255 A92-38108 space needs for exploration spaceflight p 441 A92-55696 Characterization of atrial natriuretic peptide receptors [IAF PAPER 92-0247] in brain microvessel endothelial cells Changes in renal function and fluid and electrolyte p 255 A92-38109 regulation in space flight Reduced energy intake and moderate exercise reduce p 425 A92-55698 [IAF PAPER 92-0256] mammary tumor incidence in virgin female BALB/c mice Cardiovascular orthostatic function of Space Shuttle treated with 7,12-dimethylbenz(a)anthracene stronauts during and after return from orbit p 255 A92-38112 [IAF PAPER 92-0262] A92-55700 p 425 Effect of chemical form of selenium on tissue glutathione Investigations of the mechanisms by which lower body peroxidase activity in developing rats negative pressure (LBNP) improves orthostatic p 255 A92-38113 responses exercise, [IAF PAPER 92-0263] p 425 A92-55701 7,12-dimethylbenz(a)anthracene on food intake, body An evaluation of the lower coverage anti-G suit without composition, and carcass energy levels in virgin female an abdominal bladder after 3 days of 7 deg head down p 255 A92-38114 BALB/c mice Energy requirements for space flight [IAF PAPER 92-0264] p 425 A92-55702 p 267 A92-38115 Therapeutic effectiveness of medications taken during Hypergravity signal transduction in HeLa cells with spaceflight concomitant phosphorylation of proteins [IAF PAPER 92-0265] p 425 A92-55703 immunoprecipitated with anti-microtubule-associated Responses to graded lower body negative pressure after p 255 A92-38116 protein antibodies space flight Immunoreactive prohormone atrial natriuretic peptides [IAF PAPER 92-0266] p 426 A92-55704 1-30 and 31-67 - Existence of a single circulating Saline ingestion during lower body negative pressure amino-terminal peptide p 256 A92-38118 as an end-of-mission countermeasure to post-space flight Long-term storage of salivary cortisol samples at room orthostatic intolerance temperature p 256 A92-38119 [IAF PAPER 92-0267] p 426 A92-55705 Nutritional questions relevant to space flight Potable water supply in U.S. manned space missions A92-38130 [IAF PAPER 92-0271] p 267 p 441 A92-55708 Nutrition in space - Evidence from the U.S. and the Microbiological challenges of space habitation U.S.S.R p 281 A92-38138 [IAF PAPER 92-0276] p 442 A92-55713 Hematology and biochemical findings of Spacelab 1 Immune responsiveness and risk of illness in U.S. Air p 267 A92-38147 flight Force Academy cadets during basic cadet training Lignification in young plant seedlings grown on earth p 428 A92-56469 and aboard the Space Shuttle p 281 A92-38156 A review of microgravity surgical investigations Space Shuttle dosimetry measurements with RME-III p 428 A92-56470 p 268 A92-38158 Bronchoesophageal and related systems in space Spacelab Life Sciences 1 results flight p 428 A92-56628 [AIAA PAPER 92-1270] n 256 A92-38476 Needs for supervised space robots in Development of task network models of human exploration erformance in microgravity [IAF PAPER 92-0800] p 443 A92-57203 p 282 A92-38501 TAIAA PAPER 92-13111 Space flight and changes in spatial orientation Results of telerobotic hand controller study using force p 429 A92-57275 [IAF PAPER 92-0888] information and rate control The effects of in-flight treadmill exercise on postflight [AIAA PAPER 92-1451] p 283 A92-38579 orthostatic tolerance Spaceflight training issues **[IAF PAPER 92-0890]** p 429 A92-57277 - Shuttle versus Station A92-38698 Shuttle-food consumption, body composition and body [AIAA PAPER 92-1625] p 278 weightlessness Perception of linear acceleration in [IAF PAPER 92-0892] p 430 A92-57278 p 279 A92-39136 Display format, highlight validity, and highlight method: Tonic vibration reflexes and background force level Their effects on search performance p 303 A92-43800 [NASA-TM-104742] p 25 N92-10287 Studies of the horizontal vestibulo-ocular reflex in Extra-corporeal blood access, sensing, and radiation p 304 A92-44554 ethods and apparatuse How does Fitts' Law fit pointing and dragging? [NASA-CASE-MSC-21775-1] p 7 N92-11627 p 314 A92-44556 Intranasal scopolamine preparation and method Comparison of current Shuttle and pre-Challenger flight p 8 N92-11628 [NASA-CASE-MSC-21858-11] suit reach capability during launch accelerations Volatiles in interplanetary dust particles and aerogels p 363 A92-45824 p 52 N92-13594 Statistical differentiation between malignant and benign Evaluation of noninvasive cardiac output methods during prostate lesions from ultrasound images [NASA-TP-3174] p 121 N92-16553 p 364 A92-46279

Fuel utilization during exercise after 7 days of bed rest
[NASA-TP-3175] p 121 N92-16554
End effector with astronaut foot restraint
[NASA-CASE-MSC-21721-1] p 145 N92-16559 Reliability of a Shuttle reaction timer
[NASA-TP-3176] p 145 N92-16562
Techniques for determination of impact forces during walking and running in a zero-G environment
(NASA-TP-3159) p 121 N92-17022
Eccentric and concentric muscle performance following
7 days of simulated weightlessness [NASA-TP-3182] p 124 N92-17645
Treadmill for space flight
[NASA-CASE-MSC-21752-1] p 148 N92-17910 A method of evaluating efficiency during space-suited
work in a neutral buoyancy environment
[NASA-TP-3153] p 184 N92-19772 Lunar radiator shade
[NASA-CASE-MSC-21868-1] p 215 N92-21589
Development of an empirically based dynamic biomechanical strength model p 247 N92-22326
The application of integrated knowledge-based systems
for the Biomedical Risk Assessment Intelligent Network (BRAIN) p 230 N92-22338
Design for interaction between humans and intelligent
systems during real-time fault management p 247 N92-22339
A human factors evaluation of the robotic interface for
Space Station Freedom orbital replaceable units p 248 N92-22340
p 248 N92-22340 Space sickness predictors suggest fluid shift
involvement and possible countermeasures
p 231 N92-22350 Computer simulation of preflight blood volume reduction
as a countermeasure to fluid shifts in space flight
p 231 N92-22351 Toxicological approach to setting spacecraft maximum
allowable concentrations for carbon monoxide
p 249 N92-22354 Human exposure limits to hypergolic fuels
p 231 N92-22355
Hydrazine monitoring in spacecraft p 232 N92-22356
Microgravity vestibular investigations (10-IML-1)
p 235 N92-23626
Three-dimensional cultured glioma cell lines [NASA-CASE-MSC-21843-1-NP] p 226 N92-24052
Nutritional Requirements for Space Station Freedom
(NASA-CP-3146) p 291 N92-25961
The validation of a human force model to predict dynamic
forces resulting from multi-joint motions [NASA-TP-3206] p 316 N92-26538
[14A3A-11-3233] p 0 10 1132-20303
Correlation and prediction of dynamic human isolated
Correlation and prediction of dynamic human isolated joint strength from lean body mass
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28755
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28755 Experimental measurement of the orbital paths of
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28755 Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28755 Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity [NASA-TP-3200] p 370 N92-28897
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28212 Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity [NASA-TP-3200] p 370 N92-28897 Whole body cleaning agent containing N-acyltaurate [NASA-CASE-MSC-21589-1] p 370 N92-29137
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28755 Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity [NASA-TP-3200] p 370 N92-28897 Whole body cleaning agent containing N-acyltaurate [NASA-CASE-MSC-21589-1] p 370 N92-29137 First Lunar Outpost crew module thermal protection
Correlation and prediction of dynamic human isolated joint strength from lean body mass [NASA-TP-3207] p 317 N92-26682 Johnson Space Center's regenerative life support systems test bed [NASA-TM-107943] p 324 N92-28157 Metabolic energy requirements for space flight [NASA-TM-107933] p 307 N92-28212 Portable dynamic fundus instrument [NASA-CASE-MSC-21675-1] p 337 N92-28212 Experimental measurement of the orbital paths of particles sedimenting within a rotating viscous fluid as influenced by gravity [NASA-TP-3200] p 370 N92-28897 Whole body cleaning agent containing N-acyltaurate [NASA-CASE-MSC-21589-1] p 370 N92-29137 First Lunar Outpost crew module thermal protection design sensitivity p 445 N92-33345 Glove attachment

FOREIGN TECHNOLOGY INDEX

AEROSPACE MEDICINE AND BIOLOGY / A Continuing Bibliography 1992 Cumulative Index

January 1993

Typical Foreign Technology Index Listing

Listings in this index are arranged alphabetically by country of intellectual origin. The title of the document is used to provide a brief description of the subject matter. The page number and the accession number are included in each entry to assist the user in locating the citation in the abstract section. If applicable, a report number is also included as an aid in identifying the document.

JPRS report: Science and technology. Central Eurasia:
Life sciences
[JPRS-ULS-92-010] p 226 N92-23706
Engineering problems of integrated regenerative
life-support systems p 288 N92-25840
Carbon dioxide reduction aboard the Space Station
p 290 N92-25888
A system for oxygen generation from water electrolysis
aboard the manned Space Station Mir
p 290 N92-25889
Air regeneration from microcontaminants aboard the
orbital Space Station p 290 N92-25891
Water recovery from condensate of crew respiration
products aboard the Space Station p 317 N92-26951
Water reclamation from urine aboard the Space
Station p 317 N92-26952
Hygiene water recovery aboard the Space Station
p 318 N92-26955
The centrifugal mass exchange apparatus in
air-conditioning system of isolated, inhabited object and
its work control p 318 N92-26956
Chemolithotropic hydrogen-oxidizing bacteria and their
possible functions in closed ecological life-support
systems p 298 N92-26979
,

Typical Contract Number Index Listing

Listings in this index are arranged alphanumerically by contract number. Under each contract number, the accession numbers denoting documents that have been produced as a result of research done under the contract are shown. The accession number denotes the number by which the citation is identified in the abstract section. Preceding the accession number is the page number on which the citation may be found.

Typical Report Number Index Listing

Listings in this index are arranged alphanumerically by report number. The page number indicates the page on which the citation is located. The accession number denotes the number by which the citation is identified. An asterisk (*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

ACCESSION NUMBER INDEX

AEROSPACE MEDICINE AND BIOLOGY / A Continuing Bibliography 1992 Cumulative Index

January 1993

Typical Accession Number Index Listing

Listings in this index are arranged alphanumerically by accession number. The page number listed to the right indicates the page on which the citation is located. An asterisk (*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

SPECIAL NOTICE

The abstract sections of the monthly supplements of *Aerospace Medicine and Biology* can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each entry, e.g., p 148 N92-17910. To assist the user in binding Supplements SP-7011(359) through SP-7011(370), a title page is included in this Cumulative Index.

AEROSPACE MEDICINE AND BIOLOGY

A CONTINUING BIBLIOGRAPHY

Abstracts January — December 1992
